

**Position:** Quality Control Lab Technician Summer Student

**Location:** 145 Richmond Rd, Ottawa

**Work Model:** Onsite

**Reports to:** Lab Supervisor

### **Position Summary**

As our summer student for the Quality Control lab, you'll be exposed to a functioning industrial lab and play a key role in maintaining the lab and its equipment. You'll participate in the rigorous testing of our products and gather data to support our manufacturing group.

### **What We Can Offer You**

- **Career:** As a knowledge-based organization we will provide you with a summer of learning opportunities and work that will grow your knowledge, skills and abilities - and your resume! We will give you a strong foundation for your career, with impactful work and a supportive team that has years of experience in their fields.
- **Culture:** Personal character is the foundation of our culture. CBN's 7 Core Principles shape and guide our behaviours and underpin the sense of community you will experience at CBN. Equality, diversity and inclusivity are important to us as an organization, and we are committed to fostering and developing a work environment where every employee is treated with dignity and respect.

### **What you'll do**

- Conduct product testing for incoming and finished products, including quality checks and durability checks for in-process products.
- Prepare documentation, including data entry, generating control charts, submitting shift reports, and placing materials on hold.
- Learn how to use specialized laboratory equipment and tools to ensure that our finished products and their constituent components meet specifications and standards through verification and durability testing.
- Support other teams (Production, R&D) on projects by managing/organizing/verifying data to ensure proper collection and utilization of data.
- Help maintain the laboratory and its equipment – employ 5S principles to ensure a clean, well-organized and safe laboratory, as well as coordinate calibration and certification of laboratory equipment and manufacturing measuring devices.

### **Qualifications**

- Must be a current College, CEGEP, or University student
- Must have completed at least 1st year and be enrolled for upcoming fall semester
- Preference will be given to students enrolled in programs most closely aligned with the job
- Good communication skills
